DKM-E16-1200

德科摩E系列管材无屑切割机是德国工程师和德科摩工程技术人员倾力打造的国际级产品;外形美观大方,内部结构设计合理,操作方便;切割范围为16mm-1200mm,可切割厚度达70mm的管材, E63(75), E125(160), 切割速度最高可达24m/min以上。

DEKUMA E Series swarfless pipe cutter is developed by DEKUMA German and Chinese engineers, with practical structural design for easy operation and neat outlook. The pipe diameters of cutting is 16mm-1200mm, and the pipe thickness of cutting is up to 70mm and the cutting speed reaches above 24m/min for E63(75) and E125(160).

### 特点/Characteristics

- ➔ 设备性能稳定, 无切屑, 低噪音  
Stable performance, swarfless and low noise
- ➔ 进口电气元件和PLC控制, 操作界面人性化  
Equipped with imported electric components and PLC control with user friendly operation interface
- ➔ 进口气路控制元件及气路执行元件组成的气路系统  
Equipped with imported gas control and executing components for the gas circuit system
- ➔ 采用进口优质合金钢加工而成的切割刀具, 使切口光滑亮洁  
The cutter is made by imported high quality alloy steel ensuring clean and smooth cutting edge
- ➔ 机器整体设计完全符合欧洲CE安全标准, 操作安全方便  
The machine design meets CE safety standard, ensuring operation safety and convenience
- ➔ 专利双管无屑切割技术, 适双倍高速的管材挤出切割  
Patented double pipe swarfless cutting is suitable for double-speed high efficiency pipe extruding and cutting
